

**TOWN OF HARMONY**

**CHAPTER 10 OF THE MUNICIPAL CODE  
OF THE TOWN OF HARMONY, WISCONSIN**

**STANDARDS FOR ROAD SURFACES AND BASE ON TOWN ROADS**

**SECTION 1: PAVEMENT SURFACE AND BASE**

All town roads constructed in the Town of Harmony shall have a pavement surface of hot mixed asphalt and be placed on a base as follows:

- (1) Hot mixed asphalt must be a current Wisconsin Department of Transportation approved mix design. The initial hot mixed asphalt binder shall be no less than 2 inches in depth. The final layer of hot mixed asphalt shall not be placed until the binder has been in place for at least one winter, and the final layer shall be not less than 1.5 inches thick.
- (2) All base materials shall conform to the requirements of the State of Wisconsin Department of Transportation. The base shall be not less than 10 inches thick, and shall consist of at least 6 inches of 3-inch crushed limestone, followed by 4 inches of ¾-inch or 1-inch crushed limestone.
